

Sudhir Singh

BACKEND DEVELOPER | JAVA 8/17 | SPRING BOOT | REST APIs | MICROSERVICES | SQL

+91 7518130300 | sudhirsingh30041@gmail.com | LinkedIn | Portfolio | Bangalore, India

PROFESSIONAL SUMMARY

Experienced with Spring Security, JWT, OAuth2, Swagger/OpenAPI, API Gateway, and caching for secure and maintainable API development. Java Backend Developer with **3.8 years of experience** building enterprise backend applications using **Java 8/17, Spring Boot, REST APIs, Microservices, SQL, Spring Data JPA, and Hibernate/JPA**. Hands-on experience developing REST APIs, backend business logic, database integrations, asynchronous processing, unit tests, production troubleshooting, and performance optimization. Experienced with **Apache Kafka, Docker, Kubernetes, AWS, OCI, Maven, Git/GitHub, and Jenkins/CI-CD**. Delivered measurable improvements including **20% lower API latency, 25% faster batch processing, 30% faster workflow cycle time, and 80%+ unit test coverage on core modules**, across enterprise applications in logistics, financial services, and other business domains.

TECHNICAL SKILLS

- **Core Backend:** Java 8/17, Spring Boot, REST APIs, Microservices, SQL
- **Java:** OOP, Collections, Generics, Multithreading, Exception Handling, Stream API, Lambda, ExecutorService, Thread Pools, Design Patterns, SOLID Principles
- **Spring & Persistence:** Spring Framework, Spring MVC, Spring Data JPA, Hibernate/JPA, JDBC
- **Security & API Design:** Spring Security, JWT, OAuth2, Swagger/OpenAPI, API Gateway
- **Databases:** MySQL, Oracle, Database Transactions, Query Optimization
- **Messaging:** Apache Kafka, Producer/Consumer Architecture, Zookeeper
- **Testing & API Tools:** JUnit 5, Mockito, Postman, Unit Testing, Regression Testing, Debugging
- **Cloud & DevOps:** AWS EC2/S3, Docker, Kubernetes, Jenkins/CI-CD, Git, GitHub, Maven, OCI
- **Engineering Practices:** Agile/Scrum, MVC, Code Reviews, Git Branching/PRs, Backend Performance Optimization, Production Support, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

BO IT SOLUTIONS Pvt Ltd, Hyderabad

Jan 2026 – Present

Java Backend Developer

- Developed **Java 8 and Spring Boot** backend services for a **Shipment Tracking System**, implementing business logic for shipment status, package tracking, and delivery workflows using Spring MVC and Spring Data JPA.
- Designed and implemented **RESTful APIs and Microservices** for shipment visibility and delivery coordination, supporting enterprise data exchange across **3+ internal systems**.
- Implemented persistence and database interactions using **Spring Data JPA, Hibernate/JPA, SQL, and MySQL**, including database transactions and query optimization for reliable backend processing.
- Built **JUnit 5 and Mockito** unit tests for REST APIs and business logic, achieving **80%+ test coverage** across core modules; validated APIs using Postman and regression testing.
- Optimized concurrent backend processing using **Java ExecutorService, thread pools, and multithreading**, reducing batch-processing time by approximately **25%**.
- Optimized **MySQL queries and database operations** and diagnosed production API/backend issues, reducing service disruption by approximately **30%**.
- Supported backend build and deployment activities using **Maven, Git/GitHub, Docker, Kubernetes, Jenkins/CI-CD, AWS EC2, and S3**, collaborating with QA and frontend teams in Agile/Scrum and sustaining **99.9% uptime**.

Deloitte, Bengaluru

Jun 2024 – Oct 2025

Java Developer

- Developed **Java 8 and Spring Boot** backend functionality and REST APIs for an enterprise application, writing Java integration code to connect application APIs with Spring Boot backend services.
- Developed backend modules using **Spring Boot, Spring Data JPA, Hibernate/JPA, and SQL**, integrating application APIs with Spring Boot Microservices for enterprise data exchange across **5+ downstream systems**.
- Applied **Java Stream API, Lambda Expressions, Collections, and exception handling** to transform and process thousands of enterprise records per extraction run, reducing custom transformation code by approximately **30%**.
- Optimized **SQL queries, data extraction, and backend workflow processing**, improving workflow cycle time by approximately **30%**.
- Implemented **Apache Kafka producer and consumer services** with Zookeeper for asynchronous communication between backend modules, supporting **10+ concurrent workflow events**.

- Containerized backend services with **Docker** and deployed them using **Kubernetes**; used **Jenkins/CI-CD, GitHub, Maven, and OCI** for application build and delivery workflows, reducing environment setup time by approximately **20%**.
- Collaborated with cross-functional teams in **Agile/Scrum** delivery, maintaining a **100% on-time sprint delivery record over 6 consecutive sprints**.

Sterling Software Pvt Ltd, Chennai

Jan 2022 – Jun 2023

Java Developer

- Developed backend modules for **WhiteOak and IDFC Mutual Fund** applications using **Java, Spring MVC, REST APIs, Hibernate/JPA, and JDBC**, supporting daily NAV processing for **2 fund houses**.
- Designed and implemented backend business logic across **10+ modules** using Core Java, OOP, Collections, exception handling, and Spring Framework.
- Developed reusable **REST API components** returning JSON responses for enterprise applications, supporting backend communication across **5+ downstream services**.
- Implemented persistence and database connectivity using **Hibernate/JPA and JDBC**, supporting workflows processing **100K+ records daily**.
- Optimized **SQL queries across Oracle and MySQL** and improved backend service logic, reducing API response latency by approximately **20%**.
- Applied **database transactions and exception handling** to maintain data consistency, reducing production data errors by an estimated **15%**.
- Used **Maven and Git** for build/dependency management and source control across **10+ releases**; participated in code reviews, testing, debugging, and production issue resolution.
- Worked within **Agile/Scrum** sprints to troubleshoot, test, and deliver backend features and REST API enhancements across **5+ sprint cycles**.

ACHIEVEMENTS

- Took ownership of a **Spring Boot API integration**, connecting enterprise application data exchange with backend microservices.
- Automated an enterprise workflow, reducing manual handling by approximately **35%**.
- Diagnosed and resolved a **production API/database issue**, restoring stable backend processing within the same business day.
- Delivered a backend workflow customization after learning a new enterprise application SDK from scratch, receiving manager appreciation.
- Supported a fellow developer with technical troubleshooting and partnered with the frontend team to support on-time delivery.

CERTIFICATIONS

- **Oracle Certified Professional – Java SE 17 Developer**
- **Oracle Foundation AI Agent Studio – Foundations Associate**
- **OCI Foundations Associate (2024)**

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai

Jul 2017 – Jun 2021

B.Tech in Computer Science | CGPA: 7.67/10
